Ankara Turkey

EDUCATION

Computer Engineering

Atilim University

09/2020 - 07/2025 Ankara Turkey

EXPERIENCE

Computer Engineering Internship

Cyberverse Technology

08/2023 - 09/2024 Ankara Maidan İş Merkezi

It's a small company that specializes in GRC (Governance, Risk, and Compliance) projects

- I am currently working on a real project at the company. This project uses .NET MVC, and my tasks involve adding translations in Turkish and English for label names, as well as integrating new elements into the necessary resource files. Through this work, I've gained hands-on experience with design patterns like MVC and MVVM. The project is developed in Visual Studio 2022, and I manage the location of the resource files.

Work Experience

Cyberverse Technology

11/2023 - 01/2024 Remote

- I translated the column names from Turkish to English and created scripts for each table in Microsoft SQL Server Management Studio (SSMS).
- I created a new user interface design for the modal component of a real project using Bootstrap.

SUMMARY

"I'm Engin, currently a third-year student pursuing computer engineering at Atilim University. This upcoming summer marks my second internship experience, and I'm actively seeking new opportunities in the field."
