Ankara Turkey

EDUCATION

Computer Engineering

Atilim University

09/2020 - 07/2025 Ankara Turkey

EXPERIENCE

Software Developer (Part Time)

Cyberverse Technology

11/2023 - 01/2024 Remote

- I translated the column names from Turkish to English and created scripts for each table in Microsoft SQL Server Management Studio (SSMS).
- I created a new user interface design for the modal component of a real project using Bootstrap.

Computer Engineering Internship

Cyberverse Technology

08/2023 - 09/2024 Ankara Maidan İş Merkezi

It was a small company that specializes in GRC (Governance, Risk, and Compliance) projects.

- I was working on a real project at the company. This project used .NET MVC, and my tasks involved adding translations in Turkish and English for label names, as well as integrating new elements into the necessary resource files.
- Through this work, I gained hands-on experience with design patterns like MVC and MVVM. The project was developed in Visual Studio 2022, and I managed the location of the resource files.

SUMMARY

I am currently a third-year student pursuing computer engineering at Atilim University. This upcoming summer marks my second internship experience, and I'm actively seeking new opportunities in the field.
