Computer Engineering Graduate

[LinkedIn](#) · [LeetCode](#) · [GitHub](#) · [Portfolio](#)

Recent Computer Engineering graduate from Atılım University with hands-on experience spanning front-end, back-end, database, and AI work, gained through individual projects and internships. Comfortable building with AI-assisted tools like ChatGPT, and currently expanding into Claude Code. A quick learner who is hardworking, eager, and enthusiastic, with strong communication skills developed through leadership, teamwork, and diverse work environments.

EDUCATION

BSc, Computer Engineering

Atılım University, Turkey

100% English-taught program

2020 – 2026

IELTS Academic Exam Preparation –
currently in progress

SKILLS

Computer Science Fundamentals

AI (Basics)

Software Development

AI-Assisted Development

English

HOBBIES & INTERESTS

Drums — playing 10+ years, live performances

Theatre — actor, live performances

Sports — Fitness, swimming, basketball, kickboxing

Chess

REFERENCES

Former Head of Computer Engineering
Department, Atılım University

WORK EXPERIENCE & INTERNSHIPS

Cyberverse Technology — Summer Internship

Ankara Maidan Business Center · 20 work days · 2023

- Localized an ISO 27001 GRC platform (ASP.NET Core 7 MVC / Razor): built the Turkish/English .resx structure and refactored views to resolve all UI text through IStringLocalizer
- Mapped ~40 legacy database columns to English domain models in Entity Framework Core; debugged ASP.NET Identity login and role-based authorization

Cyberverse Technology — Part-Time Developer (Remote)

1 month total · 2023

- Managed MSSQL databases via SQL Server Management Studio, writing queries and reconciling data against Excel
- Redesigned a modal component's UI in a production ASP.NET MVC application using Bootstrap

ArVis Technology — Summer Internship

Istanbul Technopark · 30 work days · 2024

- Completed coursework in Blockchain, Artificial Intelligence, Fusion 360, and Image Processing
- Built the front end of an AI-based web app for image upload and model predictions, working across front-end and database
- Studied academic research papers to build foundational AI/ML knowledge
- Presented the completed project to the company at the end of the internship

Sibel Pharmacy — Sales & Client-Facing Role

Part-Time, as available

- Assisted customers and handled sales at my family's pharmacy since childhood
- Built communication skills bringing a business- and user-focused mindset to engineering work
