Computer Engineering Graduate

[LinkedIn](#) · [GitHub](#) · [LeetCode](#) · [Portfolio](#)

Recent Computer Engineering graduate from Atılım University with hands-on experience spanning front-end, back-end, database, and AI work, gained through individual projects and internships. Comfortable building with AI-assisted tools like ChatGPT, and currently expanding into Claude Code. A quick learner who is hardworking, eager, and enthusiastic, with strong communication skills developed through leadership, teamwork, and diverse work environments.

EDUCATION

BSc, Computer Engineering
Atılım University, Turkey
100% English-taught program
2020 – 2026

SKILLS

AI (Basics)

Software Development

Web Frameworks

Databases

AI-Assisted Development

English

HOBBIES & INTERESTS

Drums — playing 10+ years, live performances

Theatre — actor, live performances

Sports — Fitness, swimming, basketball, kickboxing

REFERENCES

Former Head of Computer Engineering
Department, Atılım University

WORK EXPERIENCE & INTERNSHIPS

Cyberverse Technology — Summer Internship

Ankara Maidan Business Center · 2023

- Contributed to a GRC platform built on .NET MVC in Visual Studio 2022
- Added Turkish/English translations and managed resource files
- Gained hands-on experience with MVC and MVVM design patterns
- Translated database column names from Turkish to English and wrote SQL scripts for each table in Microsoft SQL Server Management Studio

Cyberverse Technology — Online

Part-Time · 3 months

- Worked with Microsoft SQL Server Management Studio and Excel for database management
- Redesigned the UI for a modal component of a production project using Bootstrap

ArVis Technology — Summer Internship

Istanbul Technopark · 2024

- Completed coursework in Blockchain, Artificial Intelligence, Fusion 360, and Image Processing
- Built the front end of an AI-based web app that let users upload an image and receive model-generated predictions
- Contributed across both front-end and database development
- Studied academic research papers to build foundational AI/ML knowledge
